

In re Patent Application of:
FOORE ET AL.
Serial No. **10/767,326**
Filing Date: **January 29, 2004**

REMARKS

Applicants would like to thank the Examiner for allowing Claims 1-30. The present application with Claims 1-30 is being withdrawn from allowance so that new claims can be added and considered.

New Claims 31-34 are dependent from the base station claims, and are directed to transmission data queues. Support in the specification may be found in FIG. 5, Block 108 and in FIG. 9, as well as in paragraphs 61-64 and 83. Consequently, it is submitted that new dependent Claims 31-34 are also patentable.

Accordingly, a Notice of Allowance is requested in due course. Should any minor informalities need to be addressed, the Examiner is encouraged to contact the undersigned attorney at the telephone number listed below.

Respectfully submitted,

MICHAEL W. TAYLOR
